

People's Democratic Republic of Algeria

Ministry of Higher Education and Scientific Research

Akli Mohand Oulhadj university, Bouira,

Faculty of exact sciences

Course Notes

Partial Differential Equations

By:

Dr. Amirouche Berkani

(Associate Professor)

For:

Third year of mathematics licence

Academic Year: 2025-2026

Contents

1	Elliptic equation	3
1.1	Introduction	3
1.2	Laplace's equation	3
1.3	Harmonic functions	4
1.4	Dirichlet problem for Laplace's equation in the rectangle	5
1.5	Dirichlet problem for Laplace's equation in the Circle	11
1.5.1	Solution of the problem (P') by using the method of separation of variables	12
1.6	Poisson kernel	16
1.7	Laplace's equation in three dimension	19
1.8	Fundamental solution and Green functions	26
1.8.1	Green's formulas	26
1.8.2	Green functions	27
1.8.3	Proprieties of Green functions	31
1.8.4	Examples of Green's functions	31
1.9	Exercises	33
2	Hyperbolic equation	35
2.1	The wave equation in one dimension	35
2.2	d'Alembert's formula for the wave equation	36
2.2.1	Homogeneous wave equation	36
2.2.2	Non homogeneous wave equation	39
2.3	One dimensional damped wave equation in a bounded domain	42
2.4	Representation of the solution	47
2.4.1	Wave equation in three dimension	47
2.4.2	Wave equation in two dimension	48
2.5	Vibrating strings	49

2.5.1	Solving the vibrating string equation by the Fourier method	50
2.6	Vibrating plate	52
2.6.1	Separation of variables method for the vibrating plate equation	53
2.7	Exercises	56
3	Parabolic equation	58
3.1	Introduction	58
3.2	One dimensional heat equation	58
3.2.1	Case of a finite rod: Physical model	58
3.2.2	Solving the homogeneous problem by the separation of variables method	59
3.2.3	Solution of the inhomogeneous problem	62
3.3	Representation of the Solution of the heat equation posed on \mathbb{R}^n	64
3.3.1	Review of the Fourier transform	65
3.3.2	Solution of the heat equation posed on \mathbb{R}	66
3.3.3	Solution and regularity of the heat equation posed on \mathbb{R}^n	69
3.4	Special equations	70
3.4.1	Bernoulli equation	70
3.4.2	Riccati equation	71
3.4.3	Clairaut equation	72
3.5	Exercises	73
	Bibliographie	78
