

# DIRECT METHODS FOR SINGLE-CRYSTAL STRUCTURE DETERMINATION OF COORDINATION COMPOUNDS

Authors

AMANI DIREM, WAHIBA FALEK, ZINA BOUTOBBA, NOURREDINE BENALI-CHERIF

Publication date

2013/12/16

Publisher

Université des Frères Mentouri Constantine

Description

The crystal structure determination with X-Ray diffraction provides very important information about the arrangement of the atoms in the crystalline compounds which can be used to understand their different physical and chemical properties
